CAREER SUMMARY

A highly motivated and skilled React developer with 3 years of experience in designing, developing, and delivering scalable and user-friendly applications for both web, iOS, and Android platforms. Proficient in Reactjs, React Native, JavaScript, and complex state management. Seeking a challenging role where I can leverage my technical and creative abilities to contribute to the growth and success of a dynamic organization.

CAREER OBJECTIVE

To obtain a challenging and dynamic role as a React and React Native Developer where I can utilize my technical skills, experience, and passion for software development to help companies build high-quality and innovative applications for both web and mobile platforms.

WORK EXPERIENCE

Full Stack Developer
Naeme Events, Abuja, Nigeria.

February 2021 - Present

An all-in-one solution for Creating, Booking, and Tracking events. We make everything easy by providing QR-Codes for event/ticket verifications and ticket management with a few clicks.

- Worked as a full stack developer on my startup and leveraged the power of Nextjs, Python-Django restAPI, and Typescript to develop a performing web application.
- Wrote clean and well-documented codes for the frontend react web application with Nextjs, Tailwindcss, Nature-UI, and Typescript.
- Implemented efficient debugging and error-handling processes to identify and resolve any issues that arose quickly.
- Built and maintained backend RestAPI service with python-django, and Postgres.

Frontend Engineer – Remote
Nature UI, Remote.

June 2022 - Present

Nature-UI is a simple modular, accessible, extendable react component library optimized for tailwindcss that gives you the building block you need to develop any frontend react app with speed.

- I worked closely with a team of experienced developers to build reusable components for the

react-component library.

- Implemented efficient debugging and error-handling processes to identify and resolve any issues that arose quickly.
- Wrote clean and well-documented codes with testing
- Worked on Nature-UI documentation and improved user interface interactions.
- Currently creating a free beginner's course on how to utilize Nature-UI

React Native Developer
MGT Platforms - Contract Remote, Abuja, Nigeria.

December 2022 - March 2023

MGT is a project admin organization that helps in managing infrastructural projects with milestones between clients and contractors from start to finish.

- Worked closely with cross-functional teams to design, develop, and launch new features for the company's mobile app.
- Built and maintained reusable components using React Native, typescript, and nativewind, improving development efficiency and user experience.
- Implemented efficient debugging and error-handling processes to identify and resolve any issues that arose quickly.
- Participated in code reviews and contributed to developing best practices and coding standards

SKILLS

Strong experience in React Native development, proficient in JavaScript (TypeScript, React, React Native, PWA NextJS, Redux Emotion, Material UI, Chakra UI, Nature UI, Hooks, Context), Python (Django, DjangoRestFramework Graphene Django Supabase, Postgres), and CSS(TailwindCSS, Bootstrap, CSS-in-JS, SCSS, Nature UI) HTML.

Experience with Git version control system, ability to write clean and maintainable code, strong problem-solving skills, and soft skills.
